

INSTITUTE OF CHEMICAL TECHNOLOGY

(University under Section - 3 of UGC Act 1956) (formerly UDCT/UICT, Mumbai)
Elite Status and Centre of Excellence- Govt. of Maharashtra
NBA Accredited; 'A' Grade by MHRD; UNIVERSITY PAR EXCELLENCE
Matunga, Mumbai - 400019, India

SECOND YEAR BACHELOR OF TECHNOLOGY/ BACHELOR OF CHEMICAL ENGINEERING (SEMESTER - IV) EXAMINATION APRIL 2025

MGT1102- PRINCIPLES OF MANAGEMENT AND ORGANIZATION STRUCTURES

DATE : APRIL 19, 2025
DAY : SATURDAY

TIME : 2:00 P.M TO 4:00 P.M
MARKS : 50

INSTRUCTIONS:

1. Read instructions carefully
2. Response to a 4-5 mark question shall NOT exceed half a side of your answer paper
3. Draw neat well labelled diagrams. Shoddily drawn diagrams will lose 20% of marks obtained in that answer
4. Response to a 10 mark question shall not exceed a side of your answer booklet
5. Write your question number correctly
6. Ignore CO/ K table

Q1. Violation of Fayol's principles

(20 MARKS)

Q No	Marks	CO	K
1	20	1,2	1-3

Fayol's principles were proposed for increasing productivity at workplace.

For each of the 5 caselets given below, identify which of Fayol's principle/s has/have been violated and justify using O/I ratio as base of explanation.

Caselet 1: At XYZ Corporation, Emma is working as a senior marketing manager. However, she reports to both the head of the marketing department and the project manager assigned to a specific product launch. On a particular day, she receives conflicting instructions from both superiors: the head of marketing asks her to prioritize market research, while the project manager directs her to focus on promotional activities. This confusion leads to inefficiencies and delays in completing tasks.

Caselet 2: At a software development firm, the company hires new developers and offers them a high salary package along with a range of benefits. However, the existing employees, who have been with the company for several years, are neither given salary hikes nor additional benefits. The long-term employees feel undervalued and demotivated, which leads to a decline in morale.

P.T.O.

Caselet 3: In a hospital, the nursing staff and doctors have developed a sense of rivalry over the years. The doctors often criticize the nurses in front of patients, while the nurses feel underappreciated and ignore the doctors' requests when they are not being watched by supervisors. This atmosphere of tension and division affects patient care and creates a hostile work environment.

Caselet 4: At a call center, several employees repeatedly arrive late for their shifts, and while there is an established policy that mandates punctuality, the management does not take any disciplinary action. The supervisors often overlook tardiness, and no one is held accountable for breaches of company policy. As a result, the tardiness becomes a common issue, affecting productivity.

Caselet 5: In a large manufacturing company, workers on the assembly line are often asked to perform tasks outside their specific skill set. For example, a worker assigned to operate a machine is also tasked with quality control, inventory management, and troubleshooting, leading to errors and delays. The workers are not specialized in each area, which reduces efficiency.

Q2. Draw a neat and well labelled diagram of the following (20 M)
(please use an entire side of answer sheet to make the diagram neat and well spaced)

Q No	Marks	CO	K
2	20	3,4	1-3

1. Tall hierarchical structure(4 levels) with span of control (2)
2. Porter's Value chain

Q3. Field project assignment (10 M)

Q No	Marks	CO	K
3	10	5	1-3

Referring to your field assignment of organization culture:

A) what were your findings in terms of your audience's understanding of ICT culture(refer only to the topic assigned to your team)

B) If you had to suggest to the institution ways of making culture known (culture building)to all coming generations what would you suggest

INSTITUTE OF CHEMICAL TECHNOLOGY
MID SEMESTER EXAMINATION
PRINCIPLES OF MANAGEMENT AND ORGANIZATION STRUCTURES
MARKS: 30 MARKS
Date: 10/2/25
Time: 3.30pm-4.30pm

Instruction

Please read instructions carefully
A legible handwriting is expected
The co an kl table may be ignored
Answer all sections and subsections of a question together

Q1. Draw a neat labelled model of the Porter's value chain (10 marks)

Question	Marks	CO	KL
1	10	1	1-2

Q2. Do as directed

2A. NAME THE FOLLOWING (write only the answer) (3Marks)

Question	Marks	CO	KL

- A) The term used to describe the number of subordinates directly managed by a manager or supervisor in an organization. _____
- B) The strategy where a company expands its operations into the next stage of production or distribution, typically towards the customer end. _____
- C) The concept that refers to the limitation of human cognitive abilities, which restricts decision-making to only what is practical, available, and understandable, rather than optimizing all possible outcomes. _____

2B. Say true or false with justification (Note that no credits will be awarded if there is no justification) (6Marks)

Question	Marks	CO	KL
2B	6	1-3	1-3

- A) . Marketing and sales are considered support activities in Porter's value chain.
- B) The top level management needs to have a very large proportion of technical skills.
- C) The role where the manager represents the organization in a ceremonial and symbolic capacity is the spokesperson role.

2C. Answer the following based on the image given below

(6 Marks)

Question	Marks	CO	KL
2C	6	3-4	1-2

FIG.1

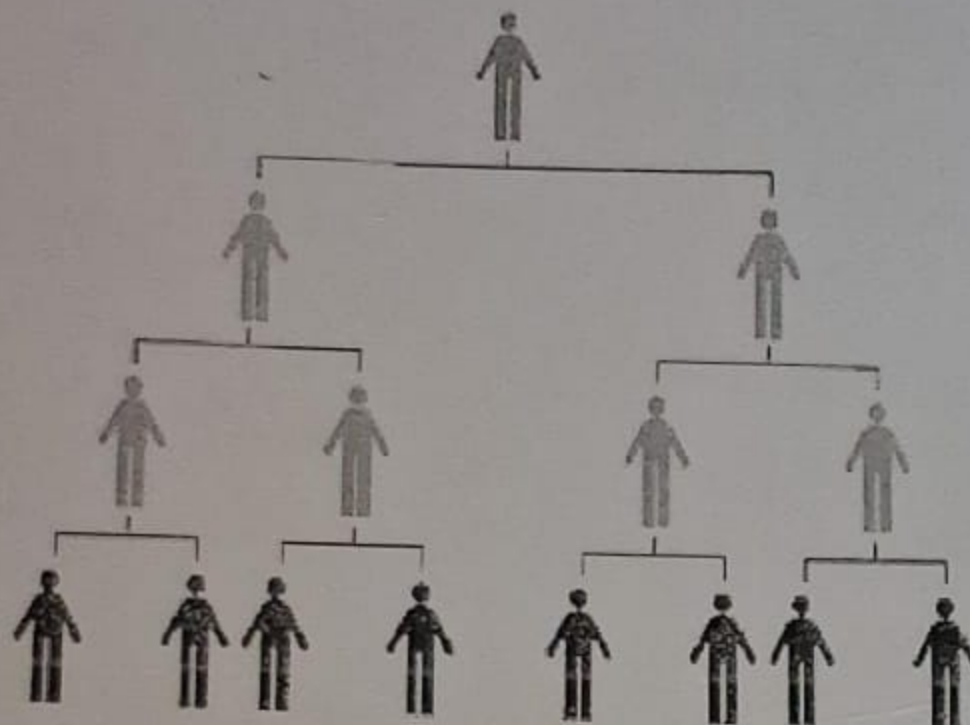

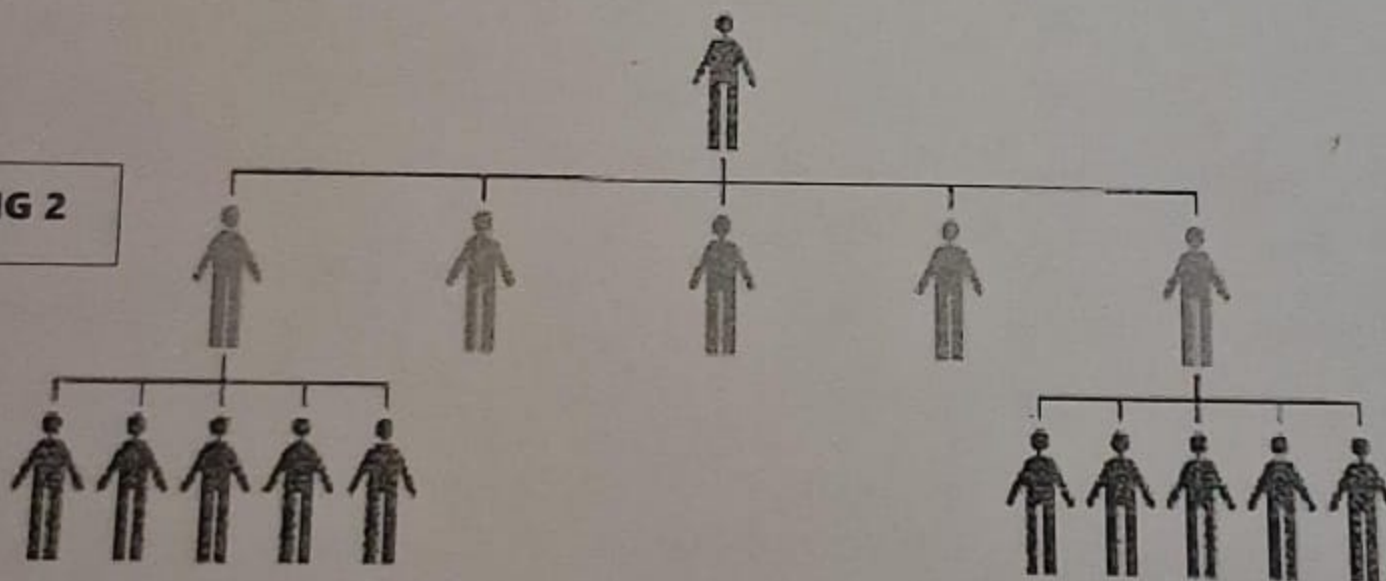

FIG 2

Fill the following table (Draw the table in your answer booklets--any other form of answer will NOT be credited)

	Span of control (mention number)	Is it a wide span or narrow span (mention wide/ narrow)	Is it a tall or flat structure (Mention Tall/Flat)
Fig 1			
Fig 2			

Q3. Introspection

(5 Marks)

Question	Marks	CO	KL
3	5	1-3	3

Imagine you're managing a team to complete a department project. Based on Fayol's principles of division of work, authority and discipline, how would you go about the project?

Mention specific steps (not the general description of the theory) ps you would take to ensure that tasks are divided effectively and that each team member has clear responsibilities, while maintaining a sense of coordination and efficiency and discipline.

How would you ensure that the following principles as put forth by Henri Fayol are satisfied

- ✓ Division of labour
- ✓ Authority, responsibility & accountability
- ✓ Discipline
